A whole new theme in this wonderful Ice Castle game, you have princesses who are in a dollhouse frozen on the ice. Everything is ice and it's the coolest place to be. Place the furniture as desired in 3 different rooms, all made of ice. Choose from a bed room with amazing furniture and accessories, an amazing living room and an icy kitchen. The princess has just become a teenager and still has a lot of toys and accessories, it is your duty to place and decorate them. Design and decorate your living room from plot toys and other items. Princesses may be hungry in this weather, so there is a special designed kitchen that you can set up and enjoy this new theme. Alone on the mountain in this snow, its time when you live in style.-Features-* 3 rooms to choose design and decorate.* Amazing theme-related characters.*Lots of accessories to choose from. Key game improvements. Ok, it's funny, but stupid and hey there stupid pants that are nothing like Elsa Castle, I've watched frozen 10,000 times I know it even has Elsa, like seriously, how is it called frozen? I just removed this horrible game. Ads every two seconds, not dress-related at all, silly graphics and no sense. Also the most annoying sounds (inane gimmick every two seconds). I hate this app decorations are boring and you can't make things bigger or smaller Developer Zain Zafar hasn't given details of his privacy policies and data processing to Apple. The developer must provide a privacy statement when they submit their next app update.
